Terry:

Mickey indicated that they will have about \$80k left over from the actions that they took and was wondering what else he could talk with Askanase about doing. Do you have any preferences?

Here is a list of things to do:

1. Vacuum/Roll-Off Boxes
2. TT407 and 408 – Remove, Clean, Send for Recycle
3. Frac Tanks – (Dana/Dynamic want equipment)
4. Decontaminate exterior asphalt/concrete of spilled materials and contaminated sediment including all buildings except ops building;
5. Excavate visibly contaminated soils;
6. Vats, AST Secondary Containments, Sumps, Totes, Drums, 5 gallon Containers: Consolidate (Empty, RCRA Empty, Contents), HazCat, Bulk (as appropriate), Dispose – Clean Containers, containment, and sumps, Collect Liquids, Dispose of Liquids, Dispose of Containers
7. ASTs (Outside) – Dispose of Liquids, Dispose of Sludge, Clean, Dispose of Rinse Water
8. WWT ASTs – Dispose of Contents, Clean, Dispose of Rinse Water
9. Lab Pack in ops building
10. Decontaminate concrete of operations building and WWT secondary containment
11. Pile of Ceramic Materials – Dispose
12. Remove and Dispose of Trash and Debris
